HAWBUSH DIAMONDS 18: Spence, Bolton 5, Spence 4, Gage, Lockwood 2.

COVENTRY

The Coventry Control Board took stern measures recently by closing down the local "Golf course" (Whitley "A" track) until it has been made rideable. A Control Board official will inspect it when work has been completed before they will be allowed to use it for matches.

With cycle speedway on the rise in Coventry the farce made of the Bob Fletcher and Coventry Evening Telegraph Cups makes one wonder where the interest lies. With four tracks holding a round of the Bob Fletcher, only one track managed to get a turnout of more than half the riders. The C.E.T. Cup was run in a similar manner. Was the reason that the non-competitors didn't think much to their chances of qualifying for the next round. Lucky man Barry Butler after falling heavily in the Coventry v Leicester match and injuring his wrist putting him out of action for a fortnight, Barry found hé was one of those who had a bye in the B.F.Cup round. He should be fit for the next round.

Man Upset! Bob Colley seems to think his team Whitley A are being got at. (Re 1st paragraph). His criticism in the local newsheet had nearly everyone near to tears. Poor Bob!
